PORTRAIT OF PRESIDENT

Theodore Dube Says
Mr. Wilson Has Not
Been the Best Subject
He Had "Done"—Will
Exhibit Picture at
Next Salon in Paris

Washington, June 14.—President Wilson was "damned by faint praise" today by L. Theodore Dube, an artist who has just completed the portrait of the president, and who purposed to exhibit the finished work at the next salon in Paris. Proud of his work, Mr. Dube declared that Mr. Wilson was not the best subject he had "done."

"While President Wilson is not the best subject I have painted," said the artist, "the formation of his features is so striking as to make his face unlike any other. There are no two Wilsons."

The artist will take the portrait to Paris with him. Mrs. Wilson, an artist of no small merit herself, is said to have supervised the work and to have consulted daily with Mr. Dube as to the fine points in its execution.

Vacation of the Wilsons

Washington, June 14.—President Wilson today followed his custom of seeking recreation on Saturday and went out to play golf.

While the president has not determined definitely on the date for the brief vacation that he intends to take at the end of this month, tentatively it is the plan of Mr. Wilson and his family to leave Washington Friday, June 27, for Cornish, N. H., the president remaining there a week to assist his family in getting settled for the summer, and returning to Washington on July 7.

The White House let it be known today that none of the members of the Wilson family would be able to go to California to participate in the ceremonies at the New Jersey building at the Panama-Pacific exposition.

WALL STREET

New York, June 14.—There was a fairly good demand for stocks when trading began today and small gains were recorded all through the list on the first transactions. New Haven, which dropped 3-4c, was the only important stock to develop heaviness. Can, Canadian Pacific and Interborough preferred advanced a point. The gains elsewhere were fractional.

Bears tested the market but finding no sustaining demand at the opening level of prices, offered the leaders down. Union Pacific, Amalgamated Copper and Can reacted a point. Subsequently Canadian Pacific and Interborough Metropolitan preferred were lifted two points over yesterday's final figures and the general market became active and joined in the rise.

The market closed strong. Concerted efforts to drive in a stubborn short interest, together with more confident operations for the long account, were effective in raising quoted values one to three points, top of the large gains already achieved since the rebound began.

Bull operators were helped by the more cheerful character of western trade and crop advices, as well as by the calmer feeling abroad, consequent upon improvement in the Balkan situation and passing of the London settlement without serious trouble.

Growing ease in money rates which made funds available for bull operations was one of the important factors in bringing about a broader and more active market. Virtually the entire list of stocks traded in shares in the rise, which proceeded until the close with no serious check.

Bonds were firm.

Chicago Grain.

Chicago, June 14.—Forecasts of

protracted heat turned wheat prices today decidedly upward. An easy feeling early due to further showers both sides of the Canadian line disappeared when it was seen that offerings were promptly absorbed. Strength of securities counted also in favor of the bulls. The opening was unchanged to 1-4c off. July started at 91-1/2 to 91-1/4c, and then rose to 92-1/8c.

Corn advanced because of a general scramble to buy on account of fear of drought damage in Illinois and elsewhere. July, which opened a shade down to a like amount up at 59 5-8 to 59 3-4c, climbed to 60 3-8c. Need of rain lifted oats. July started unchanged to 1-5c lower at 29 1-8 to 29 1-4c, and ascended to 40c. Provisions weakened in sympathy with the hog market. First sales were 2 1-2 to 7 1-2c off, including September options as follows: Pork, \$20.12 1-2; lard, \$11.10; ribs, \$11.47 1-2@11.50.

Metals

New York, June 14.—The metal markets were dull and unchanged. Copper nominal. Lake, \$15.00@15.35; electrolytic, \$14.87 1-2@15.00; casting, \$14.75.

Iron—Unchanged.

'MONKEYING' WITH ORDERS

Senate Printing Clerk Tells of Deal Regarding the Mailing of the Anti-Free Sugar Document Under the Franking Privilege of Senator Lodge

Washington, June 14.—John H. Carroll of St. Louis, attorney for the Hill system of railroads, in the lobby investigation, today testified that his only tariff activity was the filing of a brief for the Great Northern and Burlington roads, dealing with creosote oil.

"I want to say that the so-called Hill railroads have no one in Washington trying to influence legislation," said he. Mr. Carroll added that Jas. J. Hill and possibly other officials of the Hill roads had been in Washington recently but that they did not come in connection with legislation.

Anselm Wold, the senate printing clerk, testified about the orders for printing "sugar" at a glance, an anti-free sugar argument prepared by Truman G. Palmer, representing beet sugar interests and circulated free in the mails by hundreds of thousands of copies under the franking privilege of Senator Lodge. The committee has developed testimony on whether Palmer was permitted to change the document after the senate had ordered it printed. Wold told of the procedure of printing a public document and, turning to Senator Overman, referred to a previous conversation about the incident, and added:

"I told you then some one had been monkeying with orders here and I still think so."

WILSON AND CURRENCY

President Will Bend Every Effort to Bring About Legislation—Will Back Owen-Glass Bill Which Expresses His Ideas on Reform

Washington, June 14.—President Wilson still wants currency legislation enacted at the present session of congress and will bend every effort to accomplish that purpose. It will be presented about June 23 or 24, about the time that members of the house get back for reorganization and work on the currency bill.

It was also announced today from administration quarters that Secretary McAdoo and Chairman Owen and Glass of the senate and house banking and currency committees, respectively, had reached an agreement on the main features of the currency bill they have been drafting for the last two months.

The president, it is understood, however, will not go into detail in his currency message, preferring to back the Owen-Glass bill as an expression of his ideas, but will call attention to the need for currency reform. His argument will be along the line of his letter recently to Senator Tillman, in which he declared that "in loyalty to the country" currency legislation was necessary during the present session of congress, "so that an attempt to create artificial disturbances after the tariff shall have become law, may be offset by a free system of credit which will make it possible for men, his and little, to take care of themselves in business."

The currency message is not expected to be more than 1,200 words long and it is not known whether the president will read it to congress as he did the tariff message or send it to both houses as was the custom before he broke a precedent of a century.

JAPAN AND THE TREATY

Viscount Chinda Advises Bryan That His Government Is Willing to Renew Arbitration Treaty For Five Years When It Expires August 24

Washington, June 14.—Viscount Chinda, the Japanese ambassador, has advised Secretary Bryan that Japan is willing to renew for another period of five years her arbitration treaty with the United States, which expires by limitation August 24.

Secretary Bryan, making the announcement today, said he not only hoped, but expected, the senate would ratify the new arbitration treaties already signed with Great Britain and other countries despite the opposition against them. No date for the signing of the Japanese renewal has been determined.

The senatorial opposition which Secretary Bryan is hopeful of overcoming was originally voiced by Senator Chamberlain, who insisted that in renewing a treaty with Great Britain, specific exceptions should be made to remove the Panama canal tolls controversy from the field of arbitration. The question of arbitrating the issue with Japan over the California alien land law also has been a subject of discussion among senators opposed to renewing that arbitration treaty.

President Wilson has had frequent conferences over the arbitration treaties with senators at the White House and at the capitol. Members of the foreign relations committee likewise have been frequent callers at Secretary Bryan's office. Mr. Bryan today would not say on just what representations he based his expectation that the arbitration treaties would receive senatorial approval.
